This endorsement changes the Personal Liability Coverage (Farm) or the Commercial Liability Coverage (Farm Premises and Operations) provided by this policy.

CROP DUSTING AND SPRAYING OPERATIONS

(The information required below may be shown on the "declarations").

Crop Dusting Bodily Injury and Property Damage

Limit Per Occurrence: $__________________

The Personal Liability Coverage (Farm) or the Commercial Liability Coverage (Farm Premises and Operations) of this policy is amended by the following.

1. The exclusion for "bodily injury" or "property damage" which results from the discharge of substances from an aircraft does not apply to "bodily injury" or "property damage" that results from the release or discharge of any substance from an aircraft in connection with any dusting, spraying, seeding, or fertilizing operations performed for "you" by a licensed independent contractor. "We" do not pay for "bodily injury" or "property damage" which results from dusting or spraying operations that are prohibited by law.

2. The most "we" pay for all claims from any one "occurrence" that is covered by this endorsement is the "limit" shown above. However, this "limit":

a. does not increase the Each Occurrence Limit; and

b. if applicable, is subject to the General Aggregate Limit.
